Academic reasons highlight the need and potential benefits of establishing the off-campus of Nirwan University, Jaipur

Expanding Access to Higher Education: Establishing an off-campus will help increase access to higher education, particularly in underserved regions like Jaipur and its surroundings, contributing to the country's Gross Enrollment Ratio (GER) objectives.

Bridging the Skills Gap: Rajasthan's industrial sector faces a shortage of skilled professionals. Nirwan University's off-campus will offer industry-aligned programs, particularly in fields like Medical and allied Health which will prepare students to meet the demands of local medical education requirement and address the region's skills gap.

Proven Success in Employment and Placements: Nirwan University has a proven track record of eligible students securing placements annually. Establishing an off-campus will replicate this success by providing skilled graduates to meet the demands of the Rajasthan sectors.

Fostering Research and Innovation: With Nirwan University strong focus on research, the campus will foster a research-driven academic environment that supports applied research to solve real-world industrial problems, further contributing to the region's development.

Nirwan University Entrepreneurship Development and Incubation Centre has nurtured numerous startups. Expanding this initiative support local entrepreneurship, driving economic growth in the region while also offering students hands-on entrepreneurial experience.

Healthcare demand: India's population is over 1.4 billion, with a significant need for healthcare services. The ratio of doctors and nurses to patients is considerably lower than the world health organization's recommendation. Increasing the number of medical and nursing colleges with help address this shortfall by producing more qualified healthcare professionals.

Rural Healthcare: Rural areas in India suffer from acute shortage of medical professionals. more colleges can facilitate the training of local individuals who are more likely to serve in these underserved areas.

Employment Opportunity: The establishment of new college creates numerous jobs, not only in administration, support and ancillary services. This contributes to economic growth and stability in various regions.

Higher education opportunities: In keeping with higher education policies, new colleges can contribute to training and educating increased number of young persons.

These academic reasons highlight the need and potential benefits of establishing the off-campus, ensuring regional educational development while supporting the broader goal of increasing India's GER and meeting industry demands.

Annexure-2F.3

Modalities of examination System / Process at the Proposed Off-Campus Centre

(i) All examinations conducted at the Off-Campus Centre shall fall under the direct academic and administrative control of the Office of the Controller of Examinations (CoE) at the Main Campus in Jaipur. The policies and procedures for evaluation, moderation, and declaration of results shall be uniform across all campuses.

(ii) The conduct of examinations will strictly adhere to:
Regulations governing Examinations in Nirwan University Jaipur
Norms of councils/statutory bodies, wherever applicable

(iii) Each course shall be evaluated through a combination of Internal Assessment (Continuous Evaluation) and End-Term University Examination.

(iv) Assessment tools will include written tests, lab work, assignments, projects, viva voce, seminars, and field-based evaluation, as applicable to the programme.

(v) Secure Question Paper Setting and Moderation
Question Papers will be prepared by subject experts empaneled by the CoE and moderated as per the standard operating procedures.

(vi) Examination Conduct at Off-Campus Centre
The Off-Campus Centre shall designate a Nodal Examination Officer (NEO) to coordinate with the CoE.

Invigilators and Supervisory Staff will be appointed by the Off-Campus and trained in university examination protocols.
Confidentiality, security, and integrity of the examination process will be maintained rigorously at the Off-Campus Centre.

(vii) Evaluation and Result Declaration
The University is in the process of implementing on-screen evaluation. Under the supervision of the CoE Office, answer scripts shall be securely transported or evaluated through digital evaluation.
Results will be declared centrally by the CoE after due moderation and approval of the Result Committee.
Students will be able to view their results through the ERP.

Annexure-2G.1

Employment Possibilities of pass out students from the off-campus centre. Give details of any survey / study conducted in this regard.

The employment prospects for students graduating from the proposed Off-Campus Centre at Jaipur in **Health Sciences programmes** are highly encouraging. Jaipur is a major healthcare hub of Rajasthan, having a large network of government and private hospitals, multispecinlity hospitals, nursing homes, diagnostic centres, pathology laboratories, clinics, rehabilitation centres and other healthcare institutions. The continuous expansion of healthcare services has created a growing demand for qualified and skilled healthcare professionals.

The University has undertaken a **preliminary assessment of the healthcare sector in Jaipur** based on the availability of healthcare institutions and the requirement for trained manpower. The assessment indicates considerable opportunities for employment, internships, practical training and institutional collaboration for pass-out students.

Depending upon their programme, graduates may find employment opportunities in **hospitals, nursing homes, diagnostic and pathology centres, rehabilitation centres, clinics, healthcare organisations and other allied healthcare establishments**. The University will establish linkages with healthcare institutions located in **Jaipur and surrounding areas** for practical/clinical training, internships, field visits, skill development and placement opportunities.

A dedicated **Career Development and Placement Cell** will coordinate with hospitals and other healthcare organisations for placement drives, recruitment, internships and employer interactions. The University will also conduct periodic employer interaction and feedback exercises to identify emerging manpower requirements and skill gaps, which will be utilised for improving practical training, skill development and placement support.

Thus, the proposed Off-Campus Centre will provide students with a structured pathway from **Health Sciences education to practical training, internship and employment**, with focused efforts to create employment opportunities through linkages with healthcare institutions situated in Jaipur and nearby areas.
